Recycling of personal computers used at home <http://www.pc3r.jp>

When a computer is not used any more, make direct contact with the manufacturer.

the PC 3R Promotion Center.
 Where no information is available on the manufacturer, contact TEL.03(5282)7685

Regarding garbage collection

- Keep the collection site clean together with your neighbors.
- Take responsibility for your garbage until collected.
- Bring your garbage to the garbage collection site by 8:30 AM on each garbage collection day.
- Garbage that is not properly sorted, or not properly disposed of in a designated manner cannot be collected.
- Garbage is collected on designated days from Monday to Saturday. Garbage is also collected as usual on national holidays.

Illegal dumping is a crime!

No illegal dumping!

Consumer (user)

Electric appliances, fire extinguishers/PCs for home can be recycled.

Consumers are also requested to use electric appliances carefully and properly.

Eight items subject to the Home Appliance Recycling Law

The law stipulates that consumers (persons who dispose of or use them) are to pay collection/transportation fees and recycling fees when disposing of any of these eight items.
 Act on Recycling of Specified Kinds of Home Appliances (Law No. 97 June 5, 1998)

There are two ways of disposing of these items, that is, ask an electronics retailer to collect them or directly bring them to the following designated collection site.
 Designated collection site * Collection of all manufacturers for these items available

- Okayama Freight Transportation Co., Ltd. Within the Miyoshi Industrial Complex TEL.62-1273
